

NORTHLAND CHAPTER OF THE FALCON CLUB OF AMERICA

# FALCON FLYER

DECEMBER 2011

VOLUME 4, ISSUE 4

And so ends another Northland Falcon Chapter car season . . . .

The picture above has received endless comments on the web from many car lovers wanting to know the location backdrop. We were very fortunate to have our new members, Gary & Judy Dunn direct us to this grain elevator near Cleveland, MN which is north of Mankato. We were very lucky to have a gorgeous day for the cruise and a fantastic location for a photo shoot.

A few weeks after our cruise, the grain elevator was demolished and no longer exists. As you can see in the photo we have our Chapter's logo superimposed on the building with the help of Troy's creativeness in photoshop.

## **Open Discussion**

Subjects for Wrench It: Volunteers for those subjects no suggestions were made, but we discussed how even the simplest of brake changes, oil changes, tune ups or projects that you are doing on your own car can become a part of WIT.

We need a volunteer to setup our March Club Meeting. It should be held on the 3rd or 4th weekend of the month. It can be a Breakfast, Lunch or combination event. Please contact Scot, Toni or Mike if interested.
